Specification MOS/CV1380/Issue 1. Dated 20.11.45. To be read in conjunction with K1003	SECURITY	
	<u>Specification</u> Restricted	<u>C.R.T.</u> Restricted

—————> Indicates a change

Tubes which do not satisfy the specification for CV1379 may be used as second grade tubes under the type number CV1380, if they satisfy the following relaxed specification.	
Clause Amended	Amendment
(c) 2	Line width shall be less than twice that specified in MOS/CV1379/Issue 1.
(j)	Spot movement along the X axis shall be less than 2 mm.
(k)	Zero Drift along the X axis shall be less than 2 mm.
(l)	Plate Current shall be less than 10 μ A.
(p)	The usable screen radius shall be at least 25 mm.
The tubes must conform to the remainder of the specification MOS/CV1379/Issue 1.
