CATHODE-RAY TUBE

TYPE 5EBP-

The Du Mont Type 5EBP- is a 5-inch diameter, single beam, low voltage electrostatic focus, magnetic deflection cathode-ray tube. The bulb is an all-glass blank only 8 1/8 inches long, having a 7/8-inch diameter neck offset for sector scanning.

The Type 5EBP- is particularly suitable for miniaturization techniques employed in airborne marine and portable radar receivers.

The screen is aluminized to provide high brightness and for stabilization of screen potential.
